Dear Mr. Peck:

RE: Unpermitted Gypsum Mining Operation

It has come to my attention that you are operating a gypsum mining operation at the mouth of Salt Creek Canyon immediately to the east of Nephi. A review of the Division's records fails to substantiate the existence of an approved Mining and Reclamation Plan (MRP) or a Declaration of Exemption (DOE) for this operation. Utah law requires that all mining operations fall into a DOE category or a category which has an approved MRP. I have enclosed a copy of the regulations which govern the issuance of MRPs.

Please contact me if you need further clarification regarding bringing your mining operation in compliance with these regulations.

Sincerely,

Lowell P. Braxton
